With Lightpath Low Latency Optical Transport, your business gets Best-in-Class, high-capacity point-to-point connections delivered over our State-of-the-Art low latency network. These services offer guaranteed performance and circuit delivery time frame — all for one simple flat-rate price.

Guaranteed performance with reduced cost & delivery time

Lightpath Low Latency Optical Transport services are designed to give your business the shortest routes between major exchange locations to facilitate point-to-point transmission of your low latency applications. Each customized route is continuously supervised by the Lightpath cutting-edge Network Monitoring Center and backed by our award-winning customer support.

Solutions-based benefits:

- All services are provided over our customized low latency fiber routes, guaranteeing service availability, reliability and scalability.
- Supervisory Service Channel provides end-to-end monitoring 24/7/365** to give your business piece of mind.
- Circuit delivery time frame, latency and performance are guaranteed with every route.
- Flat-rate pricing, seamless installation, predictable billing and award-winning Customer Care make it easier to manage your network and your budget.

Lightpath low latency routes

For low latency route availability, please contact your account representative.
Technical Features:

WDM Frequency: ITU Grid 100 gigahertz spacing – 1529.55nm through 1560.61nm

Physical Interface: SFP - SX-MM, LX-SM (802.3 IEEE Physical Interface)

Protocols supported: IEEE 802.3 Ethernet

Multiplexing: Active O:E:O

Interface Speed: 1Gb, 10Gb Mode: Full Duplex

Service Multiplexing: Yes

Latency: Per link

About Lightpath

Lightpath is proud to be the network New York Metro Area businesses have trusted for over 20 years.

We deliver the essential and reliable communication services that keep your organization connected with complementary Managed Services designed to help you operate more efficiently.

Count on us to listen to your needs and provide the solutions that meet today’s real-time demands and drive tomorrow’s success. Talk to a Lightpath Representative today.

- Fast, reliable and secure Ethernet-based 100% fiber-optic network
- Enterprise class Data, Voice and Internet communication services
- Cloud-based Hosted Voice, Audio, Web and Video Conference, Managed WiFi and Managed Backup
- Predictable flat-rate pricing for all telecom services from one trusted provider
- Award-winning customer support and online Customer Care access 24/7/365
